

Referral for FOCUS Services

FOCUS is a resiliency training program for military couples and families*. FOCUS staff members have special training to help families deal with the unique challenges associated with a Service Member's Wound, Illness or Injury. During participation, couples and families practice key skills to enhance emotional regulation, communication, problem solving, and family cohesion. FOCUS works closely with the Wounded Warrior Regiment to ensure a continuum of care for families and couples. FOCUS can provide in-home services for Wounded Warrior Regiment families located close to a FOCUS office. FOCUS also offers CARE, a specialized service for Wounded Warrior Regiment families located at a distance from FOCUS offices.

**Families with active domestic violence or child maltreatment (abuse or neglect) are not appropriate for this service.*

Family Last Name _____

Parent(s) first name(s) & Rank _____

Address: _____

Phone Number _____

Email _____
